ABOUT REEA GOLD GSI #1

The first of three IDW's created and presented by REEA's own members that focuses on mastering the five principles of creating a dynamic classroom.

- 1 Expertise of the learning styles of today's students will raise the level of instructor effectiveness.
- 2 Students that are engaged in their own education process subsequently learn more.
- 3 Blending assessment tools into instruction ensures students are learning.
- 4 Self-examination of philosophy, styles, and techniques causes greater awareness of instructor effectiveness.
- 5 Use of new tools and techniques will create a dynamic, interesting, supportive, and fun classroom experience.

Application of these principles will help an instructor, maximize your teaching potential! Join us in examining critical areas of instruction that will make every presentation the best it can be while achieving greater satisfaction and enjoyment for the students and instructors!

REEA's Gold Standard Certification, a three-part Instructor Development Workshop, is designed to enhance instructor delivery and improve student learning. REEA understands the importance properly skilled instructors play in creating a highly engaging learning environment for students. With this in mind, REEA has designed the curriculum for the series of IDWs to support the development of this skill set. It provides critical training for both new and current instructors. All REEA GSI IDW sessions must be taken in order. To earn your REEA GOLD certification you must complete all sessions within 3-years and be a member of REEA. REEA.org
